THE SUMMER CAMP EXPERIENCE

Students are busy. They have school, sports, band, arts programming and active social lives. They also have technology. A LOT of technology. Camp is an opportunity for them to step back from the chaos of life and unending media messages. It is a time to connect more meaningfully with friends, enjoy nature, challenge themselves to new experiences, and consider their own faith journey.

By leaving technology at home – that’s right, this is a tech-free camp – they will be able to give their full attention to being present in each moment. They will be able to look up, look around and jump into all the fun and exciting opportunities these few days present.

We don’t want students to be so busy doing that they forget how to be present. How to connect. How to enjoy a moment and take an adventure. That’s what camp is all about! It’s four days full of adventure. Full of new experiences and laughter. Full of opportunities to stretch their faith and enrich their friendships. We hope your student will join us on the journey! Space is limited, so reserve your spot soon!

ACTIVITIES

General camp activities available throughout the week include swimming, open gyms, playgrounds, gaga ball pits, hiking, nature center activities and more.

Special scheduled group activities at designated times include campfires, rock wall climbing, ropes courses, ziplines, archery and more.
